SUMMARY

I am a student in 2021 at AMIKOM University Yogyakarta majoring in informatics. Being an informatics student hones my skills in system analysis, programming, and problem solving, as well as equipping me with technical and critical thinking skills. During my studies, I have also taken an independent study program by taking a front-end web and back-end development program with Dicoding Indonesia partners, which has strengthened my abilities in front-end web and back-end and strengthened me in team collaboration. I am a competent person in carrying out responsibilities for the job desk that is my responsibility.

PROJECTS

Karyakukita Projects

Karyakukita is a web-based application platform designed to help individuals find opportunities for personal development and growth. Creating the appearance of the karyakukita website is my contribution to this project. Based on the background of this project, we want to provide a solution so that Indonesian children who have outstanding abilities in certain fields and want to use their potential to create something good but are constrained by the lack of recruitment information and their lack of understanding to apply for it can follow a series of recruitment activities without any obstacles and are able to increase their potential and self-understanding to become more developed.

Restaurant Catalog Project

In this project, I played a key role in building the website, focusing on its design and functionality. My tasks included developing a user-friendly interface, ensuring the site is responsive across devices, and implementing automated testing. I also worked closely with the team to integrate components and improve the performance and usability of the site.

EDUCATION

AMIKOM University Yogyakarta - Sleman, Special Region of Yogyakarta.

Undergraduate in S1 Informatics, 3.39/4.00

Senior High School 1 Pajangan - Pajangan, Bantul.

Science

EXPERIENCES

Quality Assurance Intern 2024

4 month experience as a quality assurance

- Candidate College

Software Tester 2023-2024

1 year experience as a software tester

- PT. ICP Cipta Prima

Study Independent 2024

following independent study batch 6

- Dicoding Indonesia

Staff Checker 2021-2023

2 years work experience as a staff checker

- PT.SiCepat Ekspres

Customer Service 2020

1 year experience as customer service

- Jogger Jogja

SKILLS

- REST API development with java spring boot, integration with MySQL database, and API testing with Postman.
- Proficient in JavaScript, CSS, and HTML.
- Experienced with frameworks such as CodeIgniter, Laravel, and Vue.js.
- Skilled in programming languages including C++ and C#.
- Experienced in SQL database management.
- Effective communicator.

ACHIEVEMENT

MSIB batch 6 participation certificate (2024): Study Independent
